

## Overview

CFC's card products are not only decorative in nature, but also provide invisible functionality. Our innovative coatings and sophisticated holographic technologies are produced in our ISO9001/2008 QMS registered facilities. These innovative coatings add value to card products by enhancing functionality and providing new design capabilities.

CFC offers a wide range of products for security and transaction cards including:

- HoloLam Plus® (U.S. Patent No. 7,544,266 B2)
- Magnetic Stripe
- Scratch-Off Foil
- Signature Panel
